TREASURER

STUART WOOD, PHILADELPHIA

AMERICAN ACADEMY OF
POLITICAL AND SOCIAL SCIENCE

PHILADELPHIA March 11, 1912.

WEST PHILA. STATION

My dear Sir:

The growing importance of our commercial and political relations with the countries of the Far East has led the Academy to prepare a special volume on "Social and Economic Conditions in China". We deem it a matter of great importance that the Academy should keep its members in touch with Far Eastern affairs, and in order to strengthen the Academy's work along these lines we desire to see enrolled amongst our members those who are giving time and thought to these questions. In pursuance of this purpose I have the honor to extend to you the formal invitation of the Academy to enrolment.

As you may know, the Academy publishes six special volumes annually, each devoted to some important industrial, economic or political problem. Members receive all these volumes, together with any special supplements that may be issued. The only financial obligation involved is the payment of the annual membership fee of five dollars.

We should like to see you enrolled as soon as possible, and I will await your further word with reference to this invitation.

Very cordially yours,

President.

Prof. Ignaz Goldziher.
